**§774.1**

**INTRODUCTION**

In this part, references to the EAR are references to 15 CFR chapter VII, subchapter C. The Bureau of Industry and Security (BIS) maintains the Commerce Control List (CCL) that includes items (commodities, software, and technology) subject to the authority of BIS. The CCL does not include those items exclusively controlled for export by another department or agency of the U.S. Government. In instances where other agencies administer controls over related items, entries in the CCL will contain a reference to these controls. Those items subject to the EAR but not

specified on the CCL are identified by the designator "EAR99". See §734.2(a) of the EAR for items that are "subject to the EAR". You should consult part 738 of the EAR for an explanation of the organization of the CCL and its relationship to the Country Chart.

The CCL is contained in Supplement No. 1 to this part and Supplement No. 2 to this part contains the General Technology and Software Notes relevant to entries contained in the CCL.
